1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum
- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled pupils

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind. Due to all of our pupils having an Education Health Care Plan, they are all considered to have a disability and our provision is set up to meet their needs. Throughout this policy the reference will be 'all pupils' rather than 'disabled pupils'.

We are committed to giving all of our pupils every opportunity to achieve the highest of standards. We do this by taking account of pupils' varied life experiences and needs. We offer a broad and balanced curriculum and have high expectations for all pupils. The achievements, attitudes and well-being of all our pupils matter. Longcause School promotes the individuality of all our pupils, irrespective of ethnicity, attainment, age, disability, gender or background.

Our school aims to be an inclusive school. We actively seek to remove the barriers to learning and participation that can hinder or exclude individual pupils, or groups of pupils. This means that equality of opportunity must be a reality for our pupils:

- girls and boys;
- minority ethnic and faith groups;
- pupils who need support to learn English as an additional language;
- pupils who are at risk of disaffection or exclusion
- pupils with special educational needs (all of our pupils);

Whilst all of our children have learning difficulties, some also have a range of additional needs. These include pupils who have physical disabilities; those on the autistic spectrum; pupils who have visual or hearing difficulties; those who need help with feeding and / or toileting; those on special diets; those who are diagnosed as epileptic; have ADHD or who have difficulty with dyslexia, dyspraxia, gross and fine motor skills. We collect information from previous schools, so that we are prepared for pupils when they arrive in school. We liaise with parents and professionals involved with the pupils to ensure we provide the right care for their needs.

We will continue to increase the extent to which disabled (all) pupils can participate in the school curriculum:

- Draw on the expertise of external agencies to provide specialist advice and support.
- ELT has an overview of the needs of all pupils.
- Ensure there are high expectations.
- Ensure there is appropriate deployment and training of support staff
- Share successful practice within the school.
- Work with partner schools through Special Schools Heads Partnership

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, the complaints procedure sets out the process for raising these concerns.

2. Legislation and guidance

This document meets the requirements of schedule 10 of the Equality Act 2010 and the Department for Education (DfE) guidance for schools on the Equality Act 2010.

The Equality Act 2010 defines an individual as disabled if they have a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on their ability to undertake normal day to day activities.

Under the Special Educational Needs and Disability (SEND) Code of Practice, 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

- Improving the physical environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services:
- Whilst our school is extremely accessible we need to continue to improve the physical environment of the school to increase the extent to which all pupils can take advantage of education and associated services.
- Ensure that any adaptations to the school increases accessibility and address priorities identified in the accessibility audit.
- Include accessibility in the school improvement plan
- Ensure any repairs and replacements to fixtures and fittings increase accessibility
- Ensure that colour contrast throughout the school is maintained within the rolling programme of redecoration.
- We will make reasonable adjustments as needed to support the needs of our pupils as and when required.
